

and by regulations issued under the authority of section 13(b), TSCA (15 U.S.C. 2612(b)) by the Secretary of the Treasury in consultation with the Administrator, Environmental Protection Agency (“EPA”).

§ 12.119 Scope.

Sections 12.120 through 12.127 apply to the importation into the customs territory of the United States of chemical substances in bulk and as part of mixtures under TSCA. Sections 12.120 through 12.127 also apply to articles containing a chemical substance or mixture if so required by the Administrator by specific rule under TSCA.

§ 12.120 Definitions.

Except as otherwise provided below, the terms used in §§12.121 through 12.127 have the meanings set forth for those terms in TSCA.

(a) *Article*—(1) *Article* means a manufactured item which:

(i) Is formed to a specific shape or design during manufacture,

(ii) Has end use functions dependent in whole or in part upon its shape or design during the end use, and

(iii) Has either no change of chemical composition during its end use or only those changes of composition which have no commercial purpose separate from that of the article and that may occur as described in §12.120(a)(2); except that fluids and particles are not considered articles regardless of shape or design.

(2) The allowable changes of composition, referred to in §12.120(a)(1), are those which result from a chemical reaction that occurs upon the end use of other chemical substances, mixtures, or articles such as adhesives, paints, miscellaneous cleaners or other household products, fuels and fuel additives, water softening and treatment agents, photographic films, batteries, matches, and safety flares in which the chemical substance manufactured upon end use of the article is not itself manufactured for distribution in commerce or for use as an intermediate.

(b) *Chemical substance in bulk form* means a chemical substance (other than as part of a mixture or article) in containers used for purposes of transportation or containment, provided

that the chemical substance is intended to be removed from the container and has an end use or commercial purpose separate from the container.

§ 12.121 Reporting requirements.

(a) *Chemical substances in bulk or mixtures*—(1) *Certification required*. The importer of a chemical substance imported in bulk or as part of a mixture, or the authorized agent of such an importer, must certify either that the chemical shipment is subject to TSCA and complies with all applicable rules and orders thereunder, or that the chemical shipment is not subject to TSCA, by signing and filing with Customs one of the following statements:

I certify that all chemical substances in this shipment comply with all applicable rules or orders under TSCA and that I am not offering a chemical substance for entry in violation of TSCA or any applicable rule or order thereunder.

I certify that all chemical substances in this shipment are not subject to TSCA.

(2) *Filing of certification*—(i) *General*. The appropriate certification required under paragraph (a)(1) of this section must be filed with the director of the port of entry before release of the shipment and, except when a blanket certification is on file as provided for in paragraph (a)(2)(ii) of this section, must appear as a typed or stamped statement:

(A) On an appropriate entry document or commercial invoice or on an attachment to that entry document or invoice; or

(B) In the event of release under a special permit for an immediate delivery as provided for in §142.21 of this chapter or in the case of an entry as provided for in §142.3 of this chapter, on the commercial invoice or on an attachment to that invoice.

(ii) *Blanket certifications*. A port director may, in his discretion, approve an importer's use of a “blanket” certification, in lieu of filing a separate certification for each chemical shipment, for any chemical shipment that conforms to a product description provided to Customs pursuant to paragraph
